Personal Expense Tracker

2 Marks

People who have trouble controlling their expenses were unwittingly spending their entire budget.

This programme helps users keep track of their costs and alerts them when they go over budget.

Group expenses, such as those incurred by a family or business, can also be monitored.

This improves the visualisation of data.

This application enables users to track expenses, warn themselves of unauthorised expenditures, and simply manage their financial choices regarding their spending and savings.

**SUBSCRIPTION:** Depending on the length  
(monthly/yearly)

Price varies according to the selected  
account.

This programme was created so that any  
organisation might use it to handle its own  
financial problems.
